

CLCA-SFBA Education Committee *presents...*

Rainwater Harvesting Workshop

November 6th 2009

Rainwater Harvesting for Landscape Professionals

Offer your clients the benefits of
Rainwater Harvesting:

- Secure a reliable water source
- Freedom from rising water rates
- Store water for emergencies
- Recharge aquifers
- On-site stormwater retention

Speaker: Bobby Markowitz, Landscape Architect of
EarthCraft Landscape Design

"Rainwater Harvesting for Professionals"

- overview of rainwater harvesting
- determining a water budget for the site
- costs and comparisons of different systems
- practical installation specifics
- planting strategies

Vendors of Rain Harvesting products will show their systems

Snacks/Drinks provided - Bring your own cup!
